Portfolio: <https://bugedo.dev> | GitHub: <https://github.com/CaimanBrujo>

## Summary

Full Stack Developer with a strong technical and entrepreneurial background. After relocating to Europe, I transitioned back into the tech field, co-founding a web solutions company and delivering clean, scalable applications using modern technologies. Skilled in both frontend and backend development, with excellent problem-solving abilities and a proven capacity to adapt quickly and contribute effectively within dynamic teams.

## Experience

### Co-Founder & Full Stack Developer - Developing Bridges (2025 - Present)

- Designed and developed full stack web applications.
- Built REST APIs, integrated third-party services, and managed deployments.
- Created responsive, accessible interfaces and optimized workflows.
- Worked with Supabase and BaaS solutions for authentication and data management.

### Electrician & Solar Water Heater Installer - Self-employed (2017 - 2024)

- Installed and maintained electrical systems for residential and commercial clients.
- Designed and implemented solar water heating solutions to improve energy efficiency.
- Worked independently and in teams, ensuring compliance with safety standards.
- Developed strong problem-solving skills and attention to technical detail.

## Technical Skills

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express, REST APIs, Supabase, BaaS

Databases: PostgreSQL, MongoDB

Tools: Git & GitHub, Vercel, Railway, Jest, Webpack, Vite, ESLint, Prettier

## Education

### Planned: Bachelor of Software Engineering (starting September 2025)

Universitat Oberta de Catalunya (UOC)

### Certified Full Stack Developer Curriculum (2025 - Present)

freeCodeCamp

Comprehensive curriculum covering responsive web design, JavaScript algorithms, frontend libraries, and backend development.

### Full Stack JavaScript Path (2025)

The Odin Project

In-depth program focused on advanced JavaScript, frontend frameworks, backend development, databases, and deployment workflows.

### Attended Systems Engineering - 3 years completed (2013-2016)

National University of Cordoba, Argentina

Studied Python basics, computer architecture, programming paradigms, Boolean algebra, mathematical analysis, and systems design.

## Languages

Spanish - Native

English - Advanced (C1)

Italian - Intermediate (B1)

## Additional Skills

Strong problem-solving skills, willingness to learn, attention to detail, fast learner, autodidact, excellent verbal and written communication.
