

Nicolás Emanuel Buggedo

Full Stack Developer

nicolas@bugedo.dev · bugedo.dev · github.com/Buggedo · linkedin.com/in/nicobugedo
Córdoba, Argentina (GMT-3) · Remote · Available immediately, full-time · English C1 · Italian B1

PROFILE

Full stack developer (React, Next.js, TypeScript, Node.js, PostgreSQL/Supabase). Two clients in production — court bookings and online ordering — and six months building a US company's internal CRM alongside its tech lead. Currently also Lead Sound Engineer on an indie game: full sound library, original soundtrack and Unity integration. Day to day I work with Claude Code and Codex; what they generate goes through review and tests before deployment.

EXPERIENCE

Full Stack Developer · Developing Bridges (own studio) May 2025 – Present · Remote

- **Abdonur** (abdonur.com): online ordering for a Middle Eastern food brand with several branches. Dynamic catalog, orders routed to the right branch, checkout over WhatsApp. In production.
- **Mundo Padel Club** (mundopadelclub.com): online booking for 3 courts. Customers pick a slot without creating an account, confirm, and pay over WhatsApp; the booking stays pending until paid. The club manages the schedule from its own panel. 50+ confirmed reservations a week.

Lead Sound Engineer · Layer 8, It's Me Games (indie 3D isometric game) 2026 – Present · Remote, part-time

- Creating the game's **entire sound library from scratch**, composing the **original soundtrack**, and integrating every sound into Unity.
- Unity is new to me on this project; the sound design isn't.

Full Stack Engineer (Contract) · Ewents Aug 2025 – Jan 2026 · US company, remote

- Built the company's **internal CRM together with its tech lead** (Angular 18, Hono on Cloudflare Workers, Supabase/PostgreSQL): invoicing, commission calculation, timesheet approval.
- Angular and Cloudflare Workers were new to me; first project inside another team's codebase and deployment process.

Operations Coordinator · Cervinia Cleaning Nov 2025 – May 2026 · Breuil-Cervinia, Italy

Winter season · in charge of a team of 10 · direct client contact, in English and Italian

Electrician & Solar Technician · Self-employed 2017 – 2024 · Córdoba, Argentina

- Own electrical and solar installation business.

STACK

Frontend	React · Next.js · TypeScript · Angular 18
Backend	Node.js · Hono (Cloudflare Workers) · Express · REST · Prisma
Data	PostgreSQL · Supabase · MongoDB
Infra	Docker · Hetzner (Ubuntu, self-hosted Supabase) · Vercel · Railway · CI/CD · Git
Also	Unity (audio integration) · Bitwig Studio
AI workflow	Claude Code · Codex · Cursor · GitHub Copilot
